

VETANK

VETANK is a program that provides a statewide network of all-terrain chairs available for use by qualified veterans enabling independent participation in outdoor and adventure recreation. This program has also benefitted veterans in need of simple mobility assistance like attending a gravesite burial, enjoying a Veteran's Day activity on a hillside, and getting around local outdoor events that span large areas.

LOCATIONS

VETANK is a growing program and currently has chairs available for loan. Please check the website for locations. For a list of current VETANK host facilities, please visit allenforce.org

JOIN

Joining VETANK is easy. Contact AllenForce or your local VETANK host location to inquire. To join as a host facility, please contact AllenForce for requirements.

PURPOSE

VETANK exists to meet a need for those veterans that are unable to experience the outdoors and adventure recreation independently. In the past the all-terrain chairs have not been available to rent or borrow for a weekend camping or hunting trip and VETANK was formed to provide a means for those with mobility issues to get back outside and enjoy themselves with minimal to no assistance. By providing a network of chairs, travelling is easier instead of hauling an all-terrain chair across the state or cross country.

ELIGIBILITY

Any veteran with a mobility issue qualifies to borrow the chair. The Veteran will be required to complete an equipment loan agreement and complete a safety class for the use of the equipment.

SUPPORT

VETANK is currently supported through generous donations and sponsorships from the community and through host locations, as well as Administrative support from AllenForce. If you are interested in supporting VETANK, please contact us at oneteam@allenforce.org or (779) 205-3314.
